

Martin[®] Vertical Motor Series Vibrators for Round Separators

MFS-Series

Single-flanged vertical electric vibrators for 24" and 30" separators.

MFD-Series

Double-flanged vertical electric vibrators for 48" and 60" separators.

Founded in 1944 on vibration technologies, Martin has a long history of producing high quality, innovative products that make bulk material handling cleaner, safer and more productive.

With the experience and expertise to produce and manufacture vibration products of the highest quality, all backed by our *Absolutely No Excuses Guarantee*, Martin is the clear choice in electric vibrators for all industrial and OEM vibration applications.

Martin offers a comprehensive and expansive selection of vibration products—all designed, engineered and manufactured in the USA and by other Martin companies worldwide.*

* Price and delivery subject to country of origin

Martin Engineering MFS and MFD-Series vibrators are typically used in medium and large sieves and circular screens. They are rated at $\frac{1}{3}$, $\frac{1}{2}$, and $2\frac{1}{2}$ hp and are capable of producing forces up to 10,000 lbs.
