

**Many Contractors Step Up to
the #8 Grade 60 Capacity Portable Rebar Cutter.**

**The DC-25X
#8 Grade 60
Rebar Cutter**

Top-quality manufacturing, long-life alloy tool-steel cutting blocks, safety pressure relief valve, precision-balanced armature, double-insulated electric motor and locking trigger switch.

This portable heavy-duty rebar cutter will safely, efficiently, and cleanly cut rebar up to #8 (1") diameter grade 60 rebar. This self-contained electric/hydraulic unit will also cut other items like chain, bolts and rod but is specifically designed for rebar. The DC-25X cutter is ideal for field use or small fabrication shops. Because our rebar cutters feature a locking trigger switch, the cutter can be operated with a foot pedal switch and should always be used with a GFI protected electrical outlet. There are no sparks or flame so it also works great on epoxy-coated rebar. It's the fastest, safest, and most economical way to cut rebar on the job. This is one of our most popular models. The DC-25X rebar cutter ships complete in a steel carrying case with hydraulic oil and a tool kit. Backed by our no-nonsense one (1) year warranty.

Specifications for the DC-25X #8 Heavy-Duty Rebar Cutter

Maximum Cutting Diameter	#8 or 1" (25 mm) Grade 60 Rebar
Cutting Speed	5 seconds
Cutting Pressure	30 tons
